MOTIF

Ethipothala

The Ethipothala is a natural valley located amidst picturesque and peaceful surroundings was once a place of penance for saints. Hence the name Ethitaposthala. Presently it is known as Ethipothala. This beautiful Valley is about 8 Kms. From the Macherla Railway Station in Guntur District.

The rain water on Nallamala Hill ranges flows underground and emerges out here as Chandravanka and Suryavanka. Suryavanka stream falls vfrom a height of 21 metres into a beautiful lagoon. The fallen water flows 3 Kms. From the valley and joins river Krishna. In ancient days saints used to go to Srisailam and Guthikonda Bilam through the underground tunnel of this Valley. The cave temples of Lord Dattatreya, His consort Madhumati Devi and Lord Ranganath are worth seeing.

This is a place of tourist attraction. Thousands of tourists who visit Nagarjunasagar Dam also visit this place.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Smt Y.V Anuradha, IAS., Director of Census Operation, Andhra Pradesh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

Preface

The District Census handbooks (DCHBs) is brought out in each decennial census since 1951 containing Village and Town Directory, Village & Town wise Primary Census Abstract (PCA) and data on “amenities” for each village and town in the district. The objective of publishing the DCHB is to place the data collected at census along with the data on amenities at Village and Town level, collected from Tahsildars/Municipal Commissioners. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with the Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in grueling efforts for months together.

Generally, the District Census Hand Book contains two parts i.e., Part A & Part B. Part A contains Village and Town Directory and Part-B contains data on Village and Town Primary Census Abstract along with Housing amenities. This time both Part-A and Part-B volumes will be published separately for each district.

The present volume deals with the Part-B of the DCHB and comprises broadly: History and scope of the DCHB, Brief History of the district, Administrative setup, District highlights, Important Statistics of the District, Brief note of Primary Census Abstract, Appendix to District Primary Census Abstract i.e., Urban block wise figures of Total, SC & ST Population, Rural PCA, Urban PCA, Housing Amenities etc., of 2011 Census of India.

The District Census Handbook is further enriched with a district and Sub-district (Mandal) maps depicting villages/towns with population size and also amenities such as educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks etc.

I am grateful to the Chief Secretary, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners, Tahsildars and senior officials of the

Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the Secondary data.

I am very privileged to be associated with the national task of Census of India 2011 in the capacity of Director of Census Operations, Andhra Pradesh, Hyderabad. I express my heartfelt gratitude to Dr. C. Chandramouli, IAS, Registrar General & Census Commissioner, India, for the inspiring guidance all along. I sincerely express my profound thanks to Dr. R.C. Sethi, ISS, Additional Registrar General, India, Dr. Deepak Rastogi, Deputy Director General, Shri. A.K. Singh, Deputy Registrar General (Census) for help, guidance and constant support accorded in all matters. Thanks are also due to Dr. A.P. Singh, Deputy Registrar General (Map) for his support and guidance in generating digital maps. I also acknowledge the continuous support of Dr. Prathibha Kumari, Assistant Registrar General (S.S) and other Officers of the Office of the Registrar General, India, New Delhi.

I sincerely express my gratitude to Shri M.S. Thapa, Additional Director (EDP) and his team for their technical guidance and also in generating various tables in bringing out this volume.

The credit for preparation of DCHB goes to a team of devoted officers and staff of this Directorate under the guidance of Shri. R.V.V. Durga Prasad, Joint Director along with the methodical direct supervision of Shri. S. Daya Sagar, Assistant Director for their active involvement and painstaking efforts in bringing out this publication. The names of individuals associated with this project are shown in 'Acknowledgements'. I am grateful to all of them.

I hope that the data users will find this publication very useful.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

General:

Guntur district in its present form was constituted only in 1904 out of the areas of Ongole taluk of Nellore district and portions of the Krishna District. Prior to 1859 there was 'Guntur district' with headquarters at Guntur but with a different jurisdiction. In 1859 this district was abolished and was divided up between Masulipatam and Rajahmundry districts, which were renamed as Krishna and Godavari. In 1904 Krishna district was bifurcated and Guntur district with its present jurisdiction was constituted into a separate independent district. The early history of the district is briefly given below.

Political History:

The earliest known rulers of the district were the Buddhist dynasty of the Andhras who built the stupa at Amaravathi and whose curious old leaden coins are still occasionally found. The Buddhist remains at Amaravathi on the right bank of the Krishna nearly seventy miles (110 Kms.) from its mouth, bear inscriptions in the Gupta character; which refer to the second century after Christ and may possibly be older than that. The Buddhist stupa, discovered on the north bank of the river near Jaggayyapet, is said to be the date as remote as 200 B.C. or only half a century later than the Asoka edicts. It may therefore be inferred that for some time before and after the Christian Era, Buddhism was firmly established on the banks of the Krishna.

This religion seems to have given way before the Brahmans and a sect of Buddhist dissenters known as the Jains. The Brahmans are said to have been invited by the King of Dharanikota, Mukkanti Pallava, in the third century A.D. or by a King named Sudakshana about the same date to Srikakulam, a shrine lower down the Krishna. Both legends are current, but the history of this period is very obscure. The Pallava dynasty may be the line of Kings which is shown by two copper plates to have reigned in the fourth century A.D. over "Vengi desha" but this kingdom is not mentioned by Ptolemy or in the Periplus of the Red Sea.

In 640 A.D. there is an account written by the Chinese Pilgrim, Hiuen Tsang, who travelled through India to see the Buddhist monasteries. He speaks of the Kingdom of Anta-lo (Andhra) with its capital ping-kilo (Vengi) and in Dhanakacheka (Dhanyakataka or Dharani Kota) describes two very extensive Buddhist monasteries, the eastern and western. The Chinese traveller describes the monasteries as surrounded by trees and gushing fountains, which may indicate a great clearance of forest and lessening of

rainfall in the last twelve centuries. He mourns over the decay of Buddhism, decay caused perhaps as much by the opposition of the Jains as by the advent of the Brahmans, for the Jains did not disappear from the Krishna district until six centuries after Hiuen Tsang's visit.

By 640 A.D. the Pallava dynasty of Vengi had been conquered by the Chalukya Kings of Kalyanpur. Some would place this conquest as far back as the time of Vishnu Vardhana, great grandfather of Satyasraya Vallabhendra in the fourth century, but at all events, the territory was divided about 605 A.D. and Vengi was given to Kubja Vishnuvardhana, the younger brother of Satyasraya Vallabhendra, King of Kalyanpur. The Kubja Vishnuvardhana founded a dynasty, known as the Eastern Chalukya Kings, who reigned for four centuries, and who excavated the cave temple at Undavalli and other rock cut shrines. About 999 A.D. they in their turn were supplanted by the Cholas. The latter after some two centuries gave place to the Ganapathis of Warangal. Ganapati Deva, who reigned at Warangal (1190-1258 A.D.), and built around Warangal the single stone wall, which is given the name Ekasilanagaram, or in its Tamil form, 'Orukkal', whence Warangal, was an active persecutor of the Jains and throughout his wide dominions which included the seacoast from Divi to Nellore, erected Brahmanical temples. Possibly he might have married his only daughter to the Jain King of Dharanikota for political reasons, to absorb in his Kingdom the territory of this petty ruler, and Pratapa Rudra, the son born of this mixed marriage, would naturally follow his mother's faith.

After the death of Ganapathi Deva, the grandfather of Pratapa Rudra, in 1258 A.D the Government was assumed by his daughter, Rudramma, one of the most illustrious and famous women in Indian history who have left behind a reputation as the most skilful ruler. It was during the regency of this widowed queen that the Venetian traveller, Marco Polo, visited this country, about the year 1290 A.D. He seems to have landed at Motupalle, now an obscure fishing village near Chirala.

This queen Rudramma transferred the royal authority to her daughter's son, Pratapa Rudra, in the year 1295 A.D. There are numerous grants of Pratapa Rudra in Krishna district and in the Palnad taluk. In 1323 A.D. he was taken captive by the Muslims and carried away to Delhi and this was an irretrievable disaster, for although his son Virabhadraya asserted his independence in 1344 A.D. He failed to regain the lost dominions of his father and the Muslim kingdom of Gulbarga steadily advanced until in 1425 A.D. when Warangal was included within its limits.

After the captivity of Pratapa Rudra in 1323 A.D. his kingdom was left without a ruler. This district then came under a dual sway, the king of Orissa ruling the northern part while the south fell into the hands of a line of cultivators who rose to considerable power and are known as the Reddi Kings of Kondaveedu.

The founder of the family of Reddi Kings of Kondaveedu was Donti Aliya Reddi, a cultivator of Hanumakonda, who amassed enormous wealth, tradition says by discovering the alchemists' secret of the process of transmuting metals into gold, and migrated to Kondaveedu. On the downfall of Pratapa Rudra, the eldest son, Pulayya Vema Reddi declared himself as independent ruler of the hill fort of Kondaveedu. He also possessed himself of the fortresses of Bellamkonda, Vinukonda, and Nagarjunakonda in Palnad taluk. His brother Anavema Reddi extended his dominions as far as Rajahmundry in the north, Kanchi in the south and Srisailam in the west. Kondapalle hill fort is said to have been built in his reign. An inscription at Amaresvaram dated 1361 A.D. states that Anavema Reddi was in possession of Kondaveedu, Addanki and Raichur, that he repaired the temple at Amaravati and the causeway at Srisailam and that he defeated various Rajas including the kings of Warangal. This last boast probably relates to the unsuccessful efforts of Virabhadraya in 1344 A.D. and later to regain his father's territories from the Muslims on the one hand and the Orissa Rajas and Kondaveedu Reddies on the other. Anavema Reddi was succeeded by his brother, Aliya Vema Reddi who was succeeded by the fourth brother, Komaragiri Reddi, a ruler of bad reputation, who was followed by his sons Komati Venka Reddi, and Racha Vema Reddi, the last of the line, who after an evil reign of four years was assassinated by a person named Chowdari Yellappa in 1428 A.D. The dates of these six Reddi kings are as follows:

Pulayya Vema Redd	...	1328 A.D.
Ana Vema Reddi	...	1340 A.D.
Aliya Vema Reddi	...	1370 A.D.
Komaragiri Reddi	...	1382 A.D.
Komati Venka Reddi	...	1396 A.D.
Racha Vema Reddi	...	1424 A.D.

These Kondaveedu Reddis were great patrons of Telugu literature. The poet Srinadha with his brother-in-law, Bammaera Pothana flourished, at their court and sang their praise. The ruins of their fortresses at Kondaveedu, Bellamkonda and Kondapalle are still to be seen.

On the extinction of the Reddi dynasty the Ganapathi King of Orissa extended his power. In 1515 A.D. King Krishna Deva Raya of vijayanagar conquered the whole of the country and left many inscriptions to perpetuate the memory of his victories. He restored Kondapalle to the Orissa Raja but retained Kondaveedu. On the fall of Vijayanagar Empire in 1565 A.D. this region was conquered by the Muslims and the Hindu rule came to an end in 1579 A.D. in this district. On the fall of the Vijayanagar Empire in 1565 A.D. it passed on to the Kutub Shahi line of Golconda, and was eventually absorbed (on the destruction of that dynasty in 1687) in the empire of Emperor Aurangzeb.

In 1611 A.D. the English founded their second settlement in India at Masulipatam, which continued to be their headquarters until it was finally moved to Madras in 1641 A.D. Three years after the founding of the English settlement came the Dutch and in 1669 A.D. the French followed. It was not, however, till the year 1750 A.D. that any of the European powers exerted any political influence in this district. Two years after that date the Subedar of the Deccan granted the whole of the Northern Circars to the French, and it was from them that this tract finally passed to the English. On the outbreak of hostilities in 1758 A.D. Colonel Forde, who was sent by Clive from Bengal to attack the French in the Northern circars, defeated them at Condore in Godavari District, and following them to Masulipatam besieged them there. Faced by a strong garrison in front and hemmed in behind by the Subedar of the Deccan, the ally of the French, his ranks rapidly thinned with disease, Forde, as a counsel of despair, at length made an almost desperate night attack upon the Masulipatam fort and captured it. As a consequence of this victory, first the divisions of Masulipatam, Nizampatam and part of Kondaveedu, and later the whole of the Circars, passed by a grant from the Subedar of the Deccan (confirmed by the emperor Shah Alam in 1765) to the Company. With the cession of the Palnad in 1801 by the Nawab of Arcot, the entire district finally became a British territory. At first it was administered by a Chief and Council at Masulipatam, but in 1794 A.D. Collectors directly responsible to the Board of Revenue were appointed at Guntur and Masulipatam. In 1859 A.D. these two Collectorates (except two taluks of the later) were amalgamated into one district.

This amalgamation did not continue for long. With the construction of the anicuts across Godavari and Krishna rivers the irrigation facilities increased. This resulted in the increase in work of all kinds in the methods of administration and rendered the task of efficiently controlling these two wealthy areas more difficult for one Collector to compass. Hence readjustment of these two districts was necessitated and in 1904 a separate

district was constituted with Guntur as headquarters. Ongole taluk of Nellore district, Tenali, Guntur, Sattenapalle, Palnad, Bapatla, Narasaraopet and Vinukonda taluks of Krishna district were included in the newly formed Guntur District. In 1909 Tenali Taluk was split up into Tenali and Repalle taluks. The jurisdiction of the district did not undergo any major change from that time and continued as part of the Madras State till 1953.

This district has played a very important role in the National struggle for independence. It produced patriots like Desabhakta Konda Venkatappaiah, Parvathaneni Veeraiah Chowdary, leader of the great Pedanandipadu 'No-Tax-Campaign' of 1923, Vunnava Lakshminarayana Panthulu, 'Andhra Ratna' Duggirala Gopala Krishnaiah, 'Andhra Kesari' Tanguturi Prakasam Panthulu (the latter two belong to Chirala and Ongole respectively, which now belong to Prakasam district), whose services to the Nation are unforgettable. 'Rythu Bandhava' prof. N.G.Ranga, popularly known as 'Acharya Ranga' rendered yeomen services during the freedom struggle in arousing the rural masses throughout the country. The district also had the fortune of being the venue of the All India Congress Committee Sessions twice.

In 1953 when the Andhra State was formed, this was also transferred to Andhra State along with the other Telugu speaking districts of the composite Madras State. After the Reorganization of States in 1956, this district along with the other districts of Andhra State became part of Andhra Pradesh .It may be worth mentioning in this connection that Guntur city, the headquarters of this district was the seat of the Andhra High Court for a period of over 3 years from 1st October 1953, i.e. from the inception of the Andhra State till the formation of Andhra Pradesh on 1-11-1956.

Administrative set-up

(a) Region of the State where the district is located:

The district is located at the south of River Krishna and is bounded by Bay of Bengal on South-east, South by Prakasam District, West & North-west by Mahabubnagar, and North-east by Krishna districts.

(b) Number of Revenue Divisions and Mandals:

In 1985, the then existing 21 Taluks were re-organised into 57 Mandal Corresponding to the Revenue Mandals, Mandal Parishads were also formed which were co-terminus with the Revenue Mandals in all cases except that the Statutory Towns were not included in the jurisdiction of the Mandal Parishads. 28 Mandals were carved out by taking villages exclusively from each of the 16 erstwhile Taluks (i.e. without including villages from a second taluks). The remaining 29 Mandals were formed by taking villages from more than one erstwhile taluk. The 57 Mandals are grouped into three Revenue Divisions in the district as shown below:

1) Narasaraopet Division: (20 Mandals) Macherla, Narasaraopet, Chilakaluripet H/O purushothapatnam, Vinukonda, Veldurthi, Durgi, Rentachintala, Karempudi, Gurazala, Dachepalle, Machavaram, Piduguralla, Ipur, Bollapalle, Nuzendla, Savalyapuram H/O Kanamarlapudi, Rompicherla, Nekarikallu, Nadendla and Edlapadu.

2) Guntur Division: (20 Mandals) Guntur, Sattenapalle, Mangalagiri, Tadepalle, Phirangipuram, Bellamkonda, Rajupalem, Krosuru, Muppalla, Atchampet H/O Chamarru, Pedakurapadu, Medikonduru, Pedakakani, Prathipadu, Vatticherukuru, Thullur, Tadikonda, Amaravathi, Chebrolu and Pedanandipadu.

3) Tenali Division: (17 Mandals) Tenali, Ponnur, Bapatla, Repalle, Bhattiprolu, Duggirala, Vemuru, Amruthalur, Kollipara, Tsundur, Kollur, Kakumanu, Pittalavanipalem, Karlapalem, Nagaram, Nizampatnam and Cherukupalle H/O Arumbaka.

(c) Total Number of Towns/Villages:

While comparing the list of villages at 2001 Census with that of 1991 Census, there was an increase of 2 villages. As per 2001 Census the district had 57 Mandals, 717 Villages, 10 Statutory Towns and one Census Town.

(d) Changes in Administrative Units during 2011 Census:

During 2011 Census, One Village Vaddeswaram is up graded as Vaddeswaram Census Town. Three (3) Villages namely;Undavalli, Navuluru and Atmakur are Classified as fully outgrowth. One village Piduguralla is upgraded as New Piduguralla Nagar Panchayat.While Vinukouda (CT) is upgraded as New Vinukonda(M). Tadepalle (M), Vinukonda(M) and Piduguralla(NP) are the 3 New Statutory towns.Vinukonda and Guntur are the new urban Agglomerations.

However, there are 712 villages in 2011 Census of which (21 uninhabited & 691 habited), 57 Mandals(Rural),3 Revenue Divisions, 14 Towns (13 Statutory[1 Municipal Corporation,11 Municipalities & 1 Nagar Panchayat] and only one Census town) and 3 Urban Agglomerations.

Statement Showing Urban Agglomerations along with its Constituent Units		
Sl. No.	Name of U.A	Constituent Units
1	Vinukonda U.A (New)	Vinukonda (M), Brahmanapalle Village (Partly New OG)
2	Narsaropet (U.A)	Narsaraopet (M), Lingamguntla Agraharam and Narasaropeta (R) Villages are partly OGs
3	Guntur U.A (New)	Guntur (M. Crop), Gorantla and Pedapalikaluru villages are (Partly New OG)

*In 1961 Census, Municipalities were divided into C.M (City Municipalities) and T.M (Town Municipalities).

District Highlights - 2011 Census

- Guntur district stands 13th position in terms of area with 11,391 Sq. Kms., and ranks 3rd in terms of population with 48,87,813 persons in the State.
- Guntur district stands 13th position in terms of urban area with 315.49 Sq. Kms., and ranks 5th in terms of urban population with 16,52,738 persons in the State, while it stands 13th in terms of rural area with 11,075.51 Sq. Kms., and ranks 3rd in terms of rural population with 32,35,075 persons in the State.
- The district ranks 2nd in terms of households with 12,96,609 as against 10,77,303 households in 2001.
- The district ranks 22nd in terms of total number of villages with 712 as against 717 in 2001.
- The district ranks 9th position in the State in terms of sex-ratio with 1,003 as against 984 in 2001.
- The district ranks 7th position in terms of density with 429 persons per Sq. Kms., as against 392 in 2001.
- The district ranks 4th position in terms of literacy with 29,60,441 literates as against 24,55,965 in 2001.
- The district ranks 1st position with 23,81,624 workers and ranks 4th with 25,06,189 non-workers as against 21,90,299 workers and 22,74,845 non-workers in 2001.

Mandal [Sub-District]:

- Veldurthi Mandal is having the largest area of 410.22 Sq. Kms., while Tadepalle Mandal is having the least area of 61.76 Sq. Kms.
- Guntur Mandal is having the largest urban area of 45.79 Sq. Kms., while Narsaraopet Mandal is having the least urban area of 7.65 Sq. Kms.
- Veldurthi Mandal is having the largest rural area of 410.22 Sq.Kms., while Tadepalle Mandal is having the least rural area of 33.01 Sq. Kms.
- Guntur Mandal is having the highest population of 7,79,289, while the least population is found in Savalyapuram H/O Kamarlapudi of 37,994 persons.

- The highest urban population of 6,70,073 persons is found in Guntur Mandal, while the least urban population of 50,866 persons in Repalle Mandal.
- The highest rural population of 1,09,216 persons is found in Guntur Mandal while the least rural population of 29,004 in Tadepalle Mandal.
- Highest sex-ratio of 1,056 is found in Repalle Mandal and the least sex-ratio of 960 is found in Medikonduru Mandal.
- Guntur Mandal is having highest population density of 3,492, while Veldurthi Mandal is having the least population density of 120 persons per Sq. Km.
- Highest no. of 5,53,422 literates are in Guntur Mandal and least no. of 17,578 literates are found in Savalyapuram H/O Kanamarlapudi Mandal.
- Guntur Mandal is having highest no. of workers 3,02,330 and non-workers 4,76,959, while Pittalavanipalem and Bellamkonda Mandal is having the least no. of workers 18,372 and non-workers 16,257 respectively.

Village:

- Mutukuru Village of Durgi Mandal is having the largest area of 13,192 hectares, while Devarapallesi village of Tenali Mandal is having the least area of 11 hectares.
- Gurazala village of Gurujala Mandal is having the highest no. of households 7,045, highest population 26,190 and 0-6 years Population 2,806 while the least no. of households 14, least Population 33 and 2 0-6 years population is found in Dasulapalle Village of Ipur Mandal, Pitchikalapalem of Thullur Mandal.
- Highest sex-ratio of 1,698 is found in Uppalapadu village of Nuzendla Mandal and least sex-ratio of 703 is found in Pedapalikaluru {part} of Guntur Mandal.
- Highest no. of 14,565 literates are found in Gorantla (part) village of Guntur Mandal and least no. of 16 literates are found in Dasulapalle village of Ipur Mandal, while highest no. of 11,854 illiterates are found in Gurazala village of Gurazala Mandal and least no. of illiterates 17 are found in Dasulapalle village of Ipur Mandal.

- Gurazala village of Gurazala Mandal is having the highest workers of 13,438 and Dasulapalle village of Ipur Mandal is having the least workers of 19, while Gurazala village of Gurazala Mandal tops with 12,752 Non-workers and Dasulapalle village of Ipur Mandal has the least no. of non-workers of 14 persons respectively.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

District Primary Census Abstract
